“be !nspired”

Launching our first ever Look Book. Be Inspired is in addition to our existing 2018/19 catalogue.

Hoping we inspire you with the fun and innovative content to discover new ideas for your restaurant, hotel or bar. Working with several new suppliers we have put together this catalogue to show you current trends in the marketplace.

There have been big changes in the last 12 months particularly in china with a move to new textures and colours. We are pleased to have started working with Serax and together with Surrey Ceramics we have some interesting options in stoneware and porcelain plates, bowls & dishes.

Cocktails are more popular and adventurous than ever and we hope that in both the bar accessories and glassware sections there is something to reflect your own innovation and ideas.

Sometimes we forget how easy it is to enhance creativity in the form of accessories and on pages 38-41 we have added colourful and interesting vases and t-light holders.

We have shown several ideas where you can bespoke your presentation working with Royal Crown Derby, Surrey Ceramics & Rosenthal..... where personal design and creativity can come to the forefront.

Introducing Studio William, Charingworth & Degrenne gives you leading edge design and award winning cutlery ranges. One of the best examples is illustrated with the ever popular Mulberry Mirror range on page 117.

PVD cutlery brings a new dimension and exciting finishes in a multitude of colours. Great for that extra look.

Creativity continues into new buffet ideas and we are pleased to be working with Mealplak whose designs are totally innovative & highly coloured.

We have enjoyed creating this Look Book and hope that you enjoy it too and love some of the leading edge ideas for 2019.

PVD Finish

Sambonet continues riding the trends of colours and proposing interesting mixes of materials and finishes.

The Bar Collection includes a practical wine bucket, a charming wine cooler, an insulated ice bucket, accompanied by spoon and tongs to serve guests. Three types of shaker complete the bar proposal: the traditional shaker, the French or Parisian version and lastly, the Boston shaker, which stands out because of its glass tumbler at the top. Their smooth streamlined shape assures the perfect mixing of ice when making cocktails.

For details of PVD finish please see page 123 in cutlery.

Sanitise & Chill Glassware in Seconds

NEW

THRILL

Thrill is a brilliant machine that sanitises glassware in seconds and keeps drinks cooler longer, neither watering down nor altering the flavour and aroma of the beverages. A glass that has been properly cleaned and sanitized enhances the overall taste experience. With thrill, it takes just a few seconds to thoroughly sanitise and chill the glass, leaving the product completely free of any unpleasant odours or after-taste.

Basic Bar Classic with a traditional diamond cut. Surfing, with a wave like tapered cut, creates a sense of the ocean, the beach, surfing and sailing. Basic Bar Motion with a modern tapered cut - reminiscent of moving blades of grass.

The finishes are not created using glass pressing techniques, but are actually cut, increasing both the quality and the brilliance of the glassware.

Hommage Gold Classic

An elegant 19-carat genuine gold decor adorns the tumblers, long drink glasses and carafe of this collection. The artful gold decor offers a modern interpretation of the classic meander pattern, bringing a touch of modern luxury to the table. The mouth blown crystal glasses have a perfect feel in the hand and allow for easy swirling. The tumbler shape emphasizes the different aromas and is sure to delight your guests.

beer basic craft

NEW

Beer Basic was developed for the worlds best beers - to meet the requirements of demanding beer connoisseurs as well as those of the International Gastronomy. The subtly tapered glasses are slightly flared towards the top which allows the foam head to unfold. Designed for lovers of advanced beer culture, Beer Basic glasses offer the right shape for perfect drinking enjoyment.

The shape assortment of Beer Basic Craft is dedicated to new Craft beers, ranging from IPA to Stout, Dark Ale and Wheat Beers. Zwiesel have worked with experts to develop a concept that perfectly matches the variety of flavours in this new gourmet trend. Beer Basic Craft now offers three glass shapes for these beers that excel at emphasizing the more intense flavours and feature a narrow bottom that fits perfectly in the hand.

bistro line

NEW

Bistro Line is the perfect glass for minimalists who appreciate design and functionality. A wide bowl sits on a short stem, offering a broad surface for the development of aromas and the flavour of elegant drinks. The formal refinement also has many advantages in daily handling.

Bistro Line is particularly space saving, sturdy and easy to clean, making the collection a particularly practical companion for easy going enjoyment at bars, hotels and large events. Made of dishwasher safe break resistant Tritan crystal, the series is a true, all rounder with the potential to become a classic.

sensa & simplify

4 Sensory Worlds, Five Shapes

NEW

Take the complexity out of modern wine enjoyment because every glass shape fits exactly one aroma or wine style. The five glass shapes therefore cover all relevant wines and sparkling wines. Each glass has particular characteristics in a typical aroma range, regardless of whether you are serving red wine, white wine or rosé. Only the character, aroma, flavour and taste of a wine decides.

Sensa

Thin walled, filigree series in a modern design. Made from the especially break resistant Tritan crystal glass.

Simplify

The same shape as Sensa but these glasses are mouth-blown.

Mouth blown crystal glasses are a sign of a real connoisseur for many wine lovers around the world. They are particularly good at accentuating the finest aromas and textures.

Every glass is a piece of pure craftsmanship, unique in its shape, delicate and elegant.

1. LIGHT & FRESH

Fresh, crisp and full of surprises - lean tasting or fine sparkling wines. The fermented grape juice is not too rich in alcohol, but has a delicate body and a fresh vitality.

Type of grape : Riesling, Mueller-Thurgau, Ebling, Trollinger, Portugieser, Vernatsch.

2. FRUITY & DELICATE

Stimulating wines that typically have a distinctly fruity taste: Sweet and sour in delicate dialogue - lightness on the gums and tongue. Mineral charm and subtle fruit sweetener offer pleasure for practically any occasion.

Type of grape: Sauvignon Blanc, Reisling fruity - sweet, Pinot Blanc, Tempranillo, Dornfelder, Zweigelt, Pinot Meunier, Dolcetto.

3. VELVETY & SUMPTUOUS

The wines sensually flow over the gums: dark fruits, oriental spices and a soft aromatic finish. The tannins are harmoniously integrated through purification or maturation, while the alcohol strengthens the finish.

Types of grape: Grauburgunder, Kerner, Gutedel, Gewuerztraminer, Merlot, Sangiovese, Grenache, Dornfelder, Lemberger, Blaufraenkisch, Barbera.

4. FLAVOURSOME & SPICY

Ripened in the sun! Flavoursome, dense wines with tannin, fruit and rich in alcohol. A high colour density and a firm tannin structure gives the wines an aromatic flavour and a fantastic finish.

Types of grape: Chardonnay, Semillion, Silvaner, Viognier, Cabernet Sauvignon, Syrah, Nebbiolo, Bordeaux Blend, Pinot Noir Barrique, Nero d'Avola.

5. SPARKLING

air & air sense

The Glass of the Professional

Pure Scandinavian design meets glass perfection. The Swedish design duo Bernadotte & Kylberg have come together with Zwiesel to develop an exclusive glass collection that is simply unparalleled. The exceptional concept is inspired by a function driven design.

The Air Sense series with its integrated glass decantation sphere from Zwiesel 1872 and the aesthetically filigree Air collection from Schott Zwiesel are sensory and formal highlights.

Both versions combine a slightly curved shape with a virtually weightless looking glass form. This highlights the design concept behind both, in which the airiness is important in every respect.

The delicate form, coupled with the crystal clear and elegant appearance of the glasses, also demonstrates the remarkable lifestyle and innovation expertise of the two collaboration partners.

krysta crystal

Gastronomy professionals are searching for glasses that satisfy their needs in terms of perfection and sophistication.

Their desire: Splendidly elegant table settings with fine, lightweight, extremely transparent products.

Their professional needs: Intensive daily use requires products that are highly resistant to shocks and detergents.

To meet these twin challenges of aesthetic excellence and resistance, The Arc Research Centre is introducing a new generation of lead-free crystal, Krysta.

Superior Strength

The Arc Research Centre has developed a crystalline material, Krysta, combining superior strength with exceptional finesse.

Finer and stronger: The Krysta innovation Lip: with a thickness of 1mm, Krysta is 30% stronger*.

Stem: Ultra-delicate stems (6mm in diameter) have twice the mechanical resistance* when made of Krysta.

- Savings across the entire chain: Fewer breakages and chipping during transportation, storage, washing and polishing.

Complete Transparency

Krysta is the purest and most transparent crystal glass on the market. The perfect mastery of its composition, the quality of the sand used, and fusion at a very high temperature gives Krysta perfect transparency.

- Tables enhanced by the sparkle of Krysta

- The role of every wine respected to perfection.

Perfect Acoustics

Krysta's exclusive composition gives it a clear, pure sound in keeping with the tone of the best crystals.

- The allure of Krysta: A unique shine coupled with a distinctive sound for a refined sensory experience.

Longlasting Brilliance

Krysta boasts extreme, long-lasting brilliance. After 2000 professional dishwasher cycles, Krysta is as brilliant and transparent as ever.

- Glasses that bring a special brilliance to your table.

- Dinner services with lasting sparkle that you will be able to use for a long time.

chef & sommelier

Chef & Sommelier symbolises an art of living that embodies the richness of French Gastronomy and Oenology.

The brand designs versatile collections of glassware, with pure and elegant lines. The unique signature can be seen to feature at the most exclusive restaurants and bars.

Chef & Sommelier designs represent a world of innovation, where the most demanding professionals draw their expertise to arouse the senses of their guests and create an unforgettable experience for their taste buds. Never before have passion, perfection and high expectations been so deeply anchored.

Indulgence, creativity, sophistication and shared authenticity lie at the heart of Chef & Sommelier's collections.

Which stemglasses foot and stem impressed the most?

Hotels and restaurants have started to experience a different level of finish and profile applied to the stem and foot of their stemware. The foot of the wine glass, if better finished with a different base profile, can provide extra comfort when holding the glass, and therefore increases the amount of pleasure obtained when in the process of wine tasting and aroma appreciation.

“ In a survey of 5 hotel & restaurant professionals the top ranking wine glass stem/foot profile and surface finish out of 6 different dinnerware brands assessed was Chef & Sommelier. ”

Sequence

The Sequence collection is remarkably balanced. At once the fine, sleek and generous design modernises the classic tulip-shaped bowl. The stem is well proportioned for refined elegance and just the right height for restaurants, wine bars and banqueting. Available in 6 sizes, this complete set ensures the best possible conditions for wine tasting.

Art Deco is in Vogue!

When people talk about the most popular design influence that evokes a feeling of style, sophistication and has luxury connotation for hotels, restaurants and bars, then it has to be Art Deco.

Art Deco, sometimes referred to as Deco, is a style of old visual arts, architecture and design that first appeared in France just before World War I. Art Deco influenced the design of buildings, fashions, cars and everyday objects. It combined modernistic styles with fine craftsmanships and rich materials. Art Deco represented luxury, glamour, exuberance and faith in social and technological progress. It doesn't matter whether an establishment is new or old, modern or traditional, you will always be able to find architectural detail, interior design elements, furniture or fixtures & fittings that have some design influence from Art Deco.

Cristal d'Arques Paris has embodied elegance á la Francaise and beauty within everyones reach. While staying true to its values, the brand is now incorporating a casual chic look, inspired by the Art deco trends and the Parisian lifestyle. We have selected our favourite ranges. Contemporary, stylish and lead-free.

Handmade

Nude embraces the now and is unashamedly design led and unapologetically contemporary, offering affordable premium.

This outstanding new collection is the culmination of three years study and creation and includes design by Rod Arad.

Nude is built on a firm belief that design is not about embellishment or style, but about the purity in the shape of the object.

NEW

Introducing Stem Zero Ion made with 'Ion Shielding Technology', making it the worlds toughest, yet finest lead free crystal glass.

Handmade Stem Zero Ion collection is strengthened by employing a special 'surface modification technology' based on an ion-exchange process.

Larger ions are incorporated into the glass 'surface structure', replacing the smaller ions which cause strains, thus increasing the strength of the glass by forming a compressive stress

Mug 12oz white, grey and pink
Saucer white only.

salam

Created in 1953, the Salam teapot is the iconic product of Degrenne. The finesse of porcelain combined with the radiance of the outer body enhances the tea experience. With its inner lining of thin felt, the tea inside is kept at its optimum temperature for twice as long as in a regular teapot. This is a clever innovation to ensure that the tea is infused with all the subtlety of its flavours as the tasting progresses.

Salam teapots are available in 2,4,6 & 8 cup with matching sugar bowl and jug. Also other finishes available.

cubique

Highly varied metal working expertise through steel products designed for the table, service and tasting appreciation.

pvd sphaera gold

NEW

PVD (Physical Vapour Deposition) is a technique which colours and shades valuable objects by evaporating metal particles in a vacuum chamber. The special treatment is welded at an atomic level to the surface of the stainless steel flatware, hardening the steel and optimizing its resistance to both rubbing and corrosion, keeping the materials foodsafe.

For PVD bar accessories see pages 4-5.

For PVD cutlery see page 123.

introducing serax

With the elaborate collection of tableware lines, Serax has established themselves in a few years as a trendsetter in the hospitality sector.

Renewing styles and materials result in a unique and diversified assortment. The creations by national and international designers gained worldwide recognition from renowned star chefs and hoteliers.

Relying only on the most passionate designers from all over the globe, Serax produce traditional handicraft. From Vietnam through Antwerp to Portugal. All items are manufactured by skilled craftsman who respect the basic idea of each design.

Serax looks for everyday beauty for the good things that make life worth living. To experience, to share and to discover.

Surface by Sergio Herman

The Surface collection is a very personal project by Sergio Herman that comes from a long standing desire to create and surprise. Inspired by the raw nature of Zeeland, its rough textures and beautiful imperfections expose what is real and what is true. From the deep grey of the mystic North Sea to a scarred and ageing skin, every surface is a symbol of depth. Every surface tells a story.

Today there is nothing that we love more than to conjure a multitude of tapas and small dishes to share them with family and friends. In answer to this new way of life and to meet these needs, Merci has created a whole range of dishes, inspired by the famous American Modern Dinnerware by Russel Wright and by the traditional Japanese bento. The collection is made of sandstone and maple wood, in four different colours, and designed as a puzzle of twelve elements that can be stacked or fitted together as one wishes. The rest is up to you!

Included in the range:

by **Frédéric Gautier**

With a distinct preference for simple shapes with rough concrete aspects, the quirky French Designer Frédéric Gautier pays a tribute to architecture with his “urbanistic ceramics”. The micro-architecture of the plates, cups and teapots resonates to the echo of masters such as Mies Van der Roche, Le Corbusier and Oscar Niemeyer. In a modernistic perspective, the objects represent a kind of brutalism that emphasises the texture and imperfection of the material, rendering any form of embellishment redundant.

Included in the range:

Plates 14cm, 20cm, 28cm

Terres de Reves by Anita Le Grelle

In the familiar colours of the earth, sky and oceans of her dream world, Anita Le Grelle has continued to expand her successful tableware line Terres de Reves.

How does a Babylonian tower of clay become a successful tableware line? By sheer coincidence, according to Anita Le Grelle. One day in 2013, she decided to dismantle one of her old artworks and reuse the clay to make a mould in the shape of a small bowl. The bowl became a plate, which would then become a platter and before she knew it, Terres de Reves was a successful line of tableware.

Included in the range:
Plates 13cm, 22cm, 26cm,
Degustation Bowls 21.3cm, 27.3cm
Serving Plates 17.5cm, 21cm, 35.5cm
Pasta Plate 23.5cm

Perfect Imperfection by Roos Van de Velde

This porcelain range is a symbol of innovation in several ways. It is the first time a collection is produced in which imperfection, defectiveness and coincidence are given the chance to play their part during the production process. Hence the name, the Perfect Imperfection.

Included in the range:
Irregular shaped plates, bowls, and
a selection of beverage and serving
items.

SERAX

Delhi Black

A soft, satin black with gentle hues of brown/bronze breaking through this semi-reactive glaze. A softer alternative to plain black makes it an ideal presentation platform for vibrant, colourful food displays. This striking finish can be further enhanced by leaving the edge or the base of the item unglazed. The light, natural clay body stands out against the dark finish to create a dramatic contrast.

surrey ceramics

Unique & Bespoke Crockery

Surrey Ceramics opened in 1956, initially producing ceramic giftware for London department stores and boutiques. In the early 1990's the company took a totally different change in direction and at the premises in Grayshott, ceramic catering wares were designed and made for leading restaurants, national chains, and celebrity chefs.

In 2005 the company status was changed into a Workers Benefit Trust as part of the ongoing wishes of the founding owner Mr Ian Tippets, who retired from the business in the 1980's. This is quiet unique in many ways and the company continues to hold its staff as of core value to the business, its development and success.

The company continues to invest and implement changes to lessen its impact on the environment and has had the installation of solar panels and optimizer to reduce power consumption, as well as recycling cardboard towards packaging material and looking how further to recycle and reduce the company's consumption.

Every element of the design is focused on contributing to the experience you give to your diners and guests. With an extensive range of product shapes and finishes you can create a unique dining experience - or you can go one step further and create something totally bespoke.

There is total flexibility with all commercial tableware and everything can be customised to suit your exact requirements. Design and produce your own bespoke tableware and create an outstanding dining experience.

You choose the design and finish and we will bring your vision to life.

Plates

The best all round.....

..... or square, or rectangular.

With our bespoke design and manufacturing capabilities, it's possible to create catering plates in whatever shape or size you desire to enhance and compliment your dishes. We have over 80 plate designs with over 30 glazes.

Bowls

Bring your creative ideas to life with inspired bowls that enhance your food. We have over 60 different bowl designs to choose from, you choose the design and we create the unique bowls which will set your restaurant apart from the rest.

Dishes & Platters

It's all in the presentation.

Guests don't see the effort and skill that goes into creating exceptional food. They only see the results. That's why we give you the opportunity to create a unique dish that will promote a great dining experience. With over 15 different dishes to choose from you will be able to bring your food to life.

Dip Pots

Decades of experience working alongside professional chefs and caterers has taught us the importance of attention to detail. You'll see it in every piece we design and make for you, right down to easily overlooked items like dip pots, ramekins and cruets.

NEW

Denim

Denim has become one of the most popular matt glaze colours in the collection. Each piece is unique from the last, thanks to the darkening of the colour around the edge. The slightly rougher texture than a traditional gloss glaze makes Denim an interesting and inspiring choice for any tableware.

Green Verdigris

Reminiscent of the green pigment formed on weathered bronze, this intense, deep glaze finish is enhanced by shades of coppery gold reacting across the surface. Green Verdigris has a textured, matt finish adding even more interest to an already captivating glaze.

Your cups, saucers and mugs are some of your hardest working crockery, earning their keep from breakfast- time to last orders. Classical, contemporary, corporate or quirky, are available in various capacities, colours and quantities your business demands.

Jugs

Whatever shape or size you need we can make the perfect jug for you. Whether you are using them for water, wine, milk, sauce or cream, we pour all our creativity and years of experience into every single one.

Halo

Creamy white with reactions of light grey extending across the surface and around the edge. A fantastic option for chefs, wanting a light base to showcase their food.

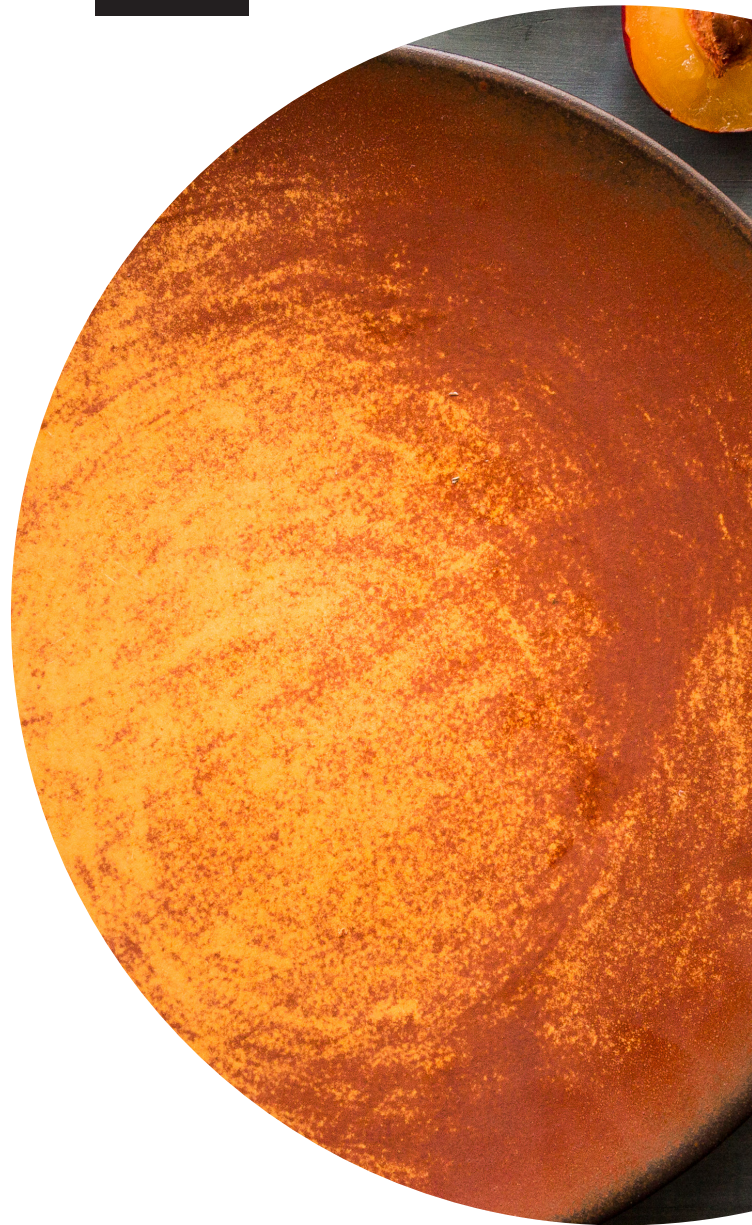

NEW

Jasper

A dark glaze with flecks of reactive gold and bronze. Each piece develops its own distinctive character as it goes through the firing process. The darkness of the glaze gives a contemporary feel and is the ideal platform for light and colourful ingredients.

Sienna

Overflowing with authentic continental appeal, Sienna evokes the mood and senses of al fresco dining at its best. The natural tones of the subtly reactive, textured glaze gives each piece a slightly individual feel while retaining the overall look.

surrey ceramics

Unique & Bespoke Crockery

Murano

A great alternative to the typical white plates usually available.

A contemporary, almost translucent white glaze, the delicate reaction to its surface gives a very subtle texture.

The glaze naturally thins out on the edges of certain items, pairing well with the dazzling pearlescent shine.

Barley

Barley is one of a few matt glazes, which are increasingly popular. Very natural in its finish, it has an earthy tone and texture that captures the warm spirit of outdoor dining, yet can be used in the most sophisticated of environments.

NEW

surrey ceramics

Unique & Bespoke Crockery

Transparent Grey

Firing in Surrey Ceramics heavy reduction kiln takes this transparent glaze and transforms it into a soft slightly speckled grey. The option of having the edges of pieces unglazed, further enhances the finish as the unglazed clay darkens during the unique firing process to beautifully compliment the overall look of the finished piece.

SURREY
CERAMICS

Ruskin Red

An intense red achieved using Surrey Ceramics unique high firing technique. This sophisticated glaze stands out without ever over shadowing food displays. A striking colour on its own this rich red pairs really well with darker coloured glazes such as Jasper and Delhi Black.

Ella Canta Pink

A vibrant and reactive glaze. The red base glaze over-sprayed with the pearlescent white changes during firing to create areas of deep pinkie-redness and soft pink and white shades on each piece. Perfectly suited to compliment other vivid colours.

Only available on larger pieces.

Bark

Taking a piece of bark from a tree and imprinting into the clay has allowed us to create this distinctive tableware. Using one of Surrey Ceramics hydraulic presses sheets of "Bark" are created which are then cut and shaped by hand, iron oxide washed over the surface catches in the grooves and helps enhance the effect creating a natural looking, unique piece of pottery.

Available in other glazes and looks particularly good in Delhi Black.

At Your Service

Royal Crown Derby offers a bespoke and customised service allowing you to personally design your china.

Onsite Design consultations – from concept to conclusion, the design team meet with you to understand the inspiration behind your design requirements.

In-house pattern development - with a design archive dating back to 1750 and over 12,000 patterns to utilise for design we are sure that we can help you. Once a design is chosen your unique surface pattern is documented and ready to use when needed.

CAD Visuals – from taking the brief, the design team presents visuals to you explaining their interpretation of your design and introduce any ideas they feel will enhance the project.

Complimentary customised backstamp - personalised client branding is recognised and included as part of the design process to include on each piece.

Minimum Order Quantity - Just 300 mixed pieces. Repeat orders from 150 pieces.

Short lead times – once design is approved production is approximately 8 weeks.

Using fine bone china and a bespoke design this allows you to create something unique and therefore priceless.

Beautiful and Elegant Designs

BRITISH BY DESIGN

Exclusively designed and manufactured cutlery. With this specialist approach to work, Studio William's enthusiasm for what they do amplifies the quality and attention to detail. The focus, and passion for cutlery has allowed them to become extremely accomplished in their sphere.

A DESIGN WITH HERITAGE

William Welch FSCD MA (RCA) is an award-winning British Industrial Designer. His father was also one of the most recognised Industrial Designers, in post-war Britain. William's enthusiasm, and attention to detail, really shows in his original cutlery designs, which push the boundaries of traditional cutlery.

DELIGHTFULLY METICULOUS

Studio William really care about the smallest of details Designs that stand the test of time. The highest quality of material available is used for all products, with every piece inspected by Studio William Quality Control Team .

Larch Mirror

Located in the heart of England, Charingworth is within an area of outstanding natural beauty called the Cotswolds. Charingworth manufacture well balanced, well-proportioned, timeless cutlery designs.

The designs encompass both English and European heritage, reflecting many traditional design features, whilst modernising and improving the design in both shape and manufacturing techniques. Soft edged handles which are lovely to hold. The highly polished stainless steel is produced only from the most consistent and technically advanced steel mills, ensuring your cutlery is corrosion resistant and will stand the test of time.

CHARINGWORTH

L'e by Starck

Degrenne has joined forces with the world famous designer Philippe Starck: Together they have created a collection of cutlery with a linear style resolutely contemporary. The forks and spoons offer a concave design allowing to enjoy sauces, quinoa and other grains and the solid knives with their oval handles reveal a flat face allowing them to lay on their edges.

This range consists of 16 pieces.
For Bahia range see page 100.

Normandy

This range consists of 12 pieces.

For Art Deco glassware see page 25.

In 1948 Guy Degrenne designed the Normandy cutlery. It was designed to be strong and understated with a touch of classicism. To celebrate 70 years Degrenne wanted to pay tribute to him by revisiting this iconic product. Sleeker, more elegant and more ergonomic, the cutlery reflects today's taste whilst remaining faithful to the original design.

DEGRENNE
PARIS

Sambonet has developed new processing techniques and enriched its flatware collections with precious PVD finishes.

PVD (Physical Vapour Deposition) is a technique which colours and shades valuable objects by evaporating metal particles in a vacuum chamber. The special treatment is welded at an atomic level to the surface of the stainless steel flatware, hardening the steel and optimizing its resistance to both rubbing and corrosion, keeping the materials foodsafe.

For PVD bar accessories see pages 4-5.

For PVD beverage items see page 50.

Plain Fiddle

William Wright has designed an eye-catching collection of flatware that is guaranteed to spark conversation at any dining table by combining colour with the lustre and elegance of silver.

The collections are made in Sheffield. The iconic home of cutlery and flatware. The products are anything but traditional, as you admire you will notice that within the range every item is slightly different. The grain or texture of each pattern subtly changes from piece to piece whilst still retaining the overall feel of the design. This serves to provide a sense of individuality in every place setting.

William Wright utilises an array of skills and expertise that have been developed over many decades to provide you with a table setting of the highest quality.

Historically cutlery design and creation has been a slow and expensive process. William Wright are now in the unique position to be able to offer bespoke flatware designs at a cost effective price, and in a time frame that makes this service accessible.

The new design and manufacturing process allows a concept to enter the building as a pencil sketch and leave as a beautifully finished piece.

We are excited to be in this position and believe this service will provide you with a host of opportunities and concepts to explore. More importantly this service offers genuine exclusivity. For the first time a cutlery pattern can be designed for a single individual, establishment or brand.
