# renew

The old throwaway society is rightfully facing a turbulent time. Mountains of rubbish are growing ever larger and layers of plastic the size of continents are gathering in the worlds oceans.

Less waste, more conservation of resources is therefore the way to achieve a more sustainable lifestyle. This includes unpackaged foods as well as cuisine focused around local ingredients.

In line with this new mindfulness comes ReNew.

ReNew is an innovative collection of recycled ceramics (Eco-Gres), made from clay and enriched with 90% recycled material.

The ceramic tableware is unglazed on the outside, giving it a matt brown finish in the style of the clay. Bowls and dishes are additionally available with a fine texture, with white highlights.

All mugs, plates and bowls are glazed in white or taupe on the inside to guarantee hygiene and prevent discolouration.

Available in the range:
